

November 12, 2020

To whom it may concern,

Here at Clearwater HCC we are closely monitoring our staff and your loved ones regarding the ongoing Covid-19 pandemic. We would like to inform you that from 11/09//2020 weekly testing; **ONE** resident has been identified with a positive test result. We are following County Public Health guidelines to ensure safety of all staff and residents. Responsible parties for resident's will be notified immediately if a test returns with a positive result.

That one resident was moved to our Covid-19 wing and will continue to be monitored. We are happy to report that we are continuing with our every shift monitoring of symptoms for all of our residents. We will continue weekly testing for all staff and residents until further directed by CDPH.

We share your concern but feel confident that we have taken the necessary measures to manage the care of our patients and will do everything we can to prevent the spread of this virus to our other residents, staff and community.

We are continuing to provide your loved ones with the care and assistance that they need and are always happy to answer calls during this difficult time. Thank you for your patience and understanding as we are all in it together.

Sincerely,

A handwritten signature in blue ink that reads "Ronald Reyes".
